Hi (b)(6) (b)(3) 10 U.S.C. 424;
(b)(6)

Nice hearing your voice this morning.

Attached is the paper I and a co-author, (b)(6) of Chile, will be presenting at a panel of the ISA in Baltimore in late February.

The paper attached contains all my contributions to the presentation; (b)(6) will be providing data over the next month to flesh out some tables in the paper, namely, Tables 4, 6, and 9. Those will be her contributions alone and need not be reviewed by U.S. reviewers. Those contributions will be from her review of public newspapers and other public sources.

I would like to draw reviewers' attention to two citations that refer to U.S. documents:

- 1) footnote 39 cites a document that has had its sensitive parts removed by authorized officials.
- 2) footnote 44 cites a document that has been officially declassified.

Both these documents are in the public domain now, and may be examined at the urls shown.

These documents and all other material used in preparing the paper are unclassified and non-sensitive.

I would also like to point out that the ISA requires that all papers for the conference be posted on an internal ISA website by February 13, 2016. In this way, they are made available to other presenters in each panel before the actual dates of the conference later in February. Because DIA/DoD Public Affairs requests that they receive papers for clearance for public release one month before their due date, NIU reviewers need to finish their opsec review before 13 January.

After the conference, (b)(6) and I may decide to further refine the paper and submit it to a journal for consideration for publication. If we do that, I will re-submit the refined version of the paper again for review. (b)(3) 10 U.S.C. 424; (b)(6)

(b)(3) 10 U.S.C. 424; (b)(6) Could you please keep in touch with the NIU reviewers to make sure the paper gets to (b)(3) inbox before January 13th? Thanks!

If there are any questions during the review, I may be reached at the email address I am using now, or at (b)(6).
